BDP.

打造理想的人居环境

BDP 拥有超过800名建筑师、工程师、设计师和城市规划者、我们的工作室遍及英国、爱尔兰、荷兰、阿布扎比、印度和中国。所参与的设计项目遍及全世界。

BDP 成立于1961年、是全欧洲最大的综合性设计公司、并因其卓越的设计品质荣获了超过750项国内外设计大奖。

BDP 在设计过程自始至终以用户为中心、力求为客户创造最好的学习和科研环境、地方和空间、以完善的设计鼓舞和培育未来的用户。

对于致力于打造创新环境的设计师而言、地球空间的有限性无疑突显了关于未来人居环境构想的重要性。而这正是 BDP 设计师们所关注的重点、它指导着我们努力打造更加美好的人居环境。在设计过程中、我们始终坚持以下五大原则、即：

- 打造安全、舒适及令人愉悦的生活环境。
- 寻求能源利用的创新、借助原生态设计以及技术改造实现能源和资源的利用与再利用。
- 体现以使用者为中心的设计风格、以实现寓教于境。
- 充分运用我们的多元文化知识、最大限度地发挥我们跨国别、跨专业与跨领域的人才优势。
- 推广与打造令人感到自由的建筑、场所与社区、实现人与环境长久的和谐共处。

Creating Places for People.

BDP designs and creates inspiring places for people. With over 800 architects, engineers, designers, and urbanists, we work from studios throughout the UK, and in Ireland, the Netherlands, Abu Dhabi, India, and China, on projects around the world.

Founded in 1961, BDP is now the largest interdisciplinary design-led firm in Europe and has won over 750 awards for design quality from international and national bodies.

BDP places the user at the heart of the design process to create the very best learning and research environments; places and spaces that inspire and nurture the people who use them.

For designers involved in creating new environments, the reality of a finite planet highlights the importance of ideas related to places of the future. This is the focus for BDP designers, directing ourselves to shape future environments for the betterment of human kind.
We have five endeavours as points of intent for our design process. These are:

- to act as climate shapers, to create protective and positive environments for people to enjoy
- to be energy creative, using natural and technological approaches for the use and re-use of energy and resources
- to design in a user-inclusive style, engaging in a learning centred approach with the users of our buildings and places
- to cross-fertilise our knowledge from cultures, maximising the advantages of being inter-national, inter-disciplinary, and multi-sector
- to promote and create liberating buildings, places and communities for people to use and adapt over time.

THE NEW DRIEMARK WILL BE A BEAUTIFUL SCHOOL, AND WILL UNDOUBTEDLY BECOME A NEW POINT OF REFERENCE FOR THE DESIGN OF SCHOOLS IN OUR COUNTRY."
