

Senior Electrical Building Services Engineer

Full time permanent or fixed term contract

Dublin Studio	London Studio	Manchester Studio
currently recruiting	currently recruiting	currently recruiting

Do you have a passion for creative engineering? Is achieving a better work life balance important to you?

BDP is a quality brand and our studios are places where engineers and architects work together to apply new solutions to engineering challenges, creating some of the most captivating, sustainable and award winning buildings in Ireland, the UK and internationally. Our staff are supported to achieve their full potential and are encouraged to develop their skills across a broad range of activities.

We are seeking **senior electrical building services engineers** to join our dynamic team – people who revel in the opportunity to work on challenging, high profile projects in our stimulating, inter-disciplinary design studios. You will have a unique opportunity to work on a diverse range of challenging projects in sectors including workplace, healthcare, education, historic, leisure and residential.

About you

- degree qualified, preferably to masters level, in a relevant engineering discipline
- full Member of CIBSE, IET or equivalent
- Chartered Engineer
- possess excellent communication skills and capable of transmitting your passion for building services engineering to clients, other professions and the team
- have a broad experience of the industry, detailed knowledge of the design of building services systems and a keen interest in passive design techniques, sustainable environmental solutions and renewable energy technologies
- capable of offering informed and intelligent comment on issues related to the creation of sustainable buildings
- knowledgeable and experienced in using front end design tools such as IES, and are fully CAD and IT literate
- experienced in working within a Revit environment and a desire to develop these skills
- successfully designed and delivered a number of significant projects across a range of scales and sectors
- results driven, enjoy challenging opportunities, have a positive attitude and are resourceful. You will have a high degree of integrity, professional ethics, respect and sense of responsibility

About us

BDP is a major international interdisciplinary practice of engineers, architects and designers working together to create outstanding 'places for people'. Founded in Preston in the UK in 1961, we now have studios across Ireland, the UK, Netherlands, Canada, the MENA region, India, and China. BDP has a leading track record in all major sectors and has over 1000 awards for design quality.

Our studios are vibrant. We offer thought leadership and inspirational solutions, and we use our engineering ideas to shape design rather than simply implement solutions. We aspire to deliver projects with maximum value for our clients and minimum impact on the planet.

BDP offers

BDP offers a great opportunity for your personal development with exposure to the full range of our skills and expertise, as well as an attractive remuneration package that includes a competitive salary, flexible pension allowance, private medical insurance, contribution towards professional subscriptions, a stimulating working environment and excellent prospects for career advancement.

To apply

To apply for this role please e-mail an up-to-date CV with a cover letter (<400 words) that outlines your experience with the above job description for the attention of David Brennan to dublincareers@bdp.com

Please include an indication of your salary expectations and notice period in your cover letter.

No agency or 3rd party applications will be accepted.

BDP is actively fostering an inclusive organisation where people can be themselves and everyone has a sense of belonging. We want our teams to be diverse at every level, reflecting the communities we design for. As designers, we will create spaces for all that promote equity, wellbeing and participation within the built environment. We actively encourage people from a variety of backgrounds with different skills, professional and life experiences, to join us and help us to achieve our aspirations. We also welcome applications from candidates who wish to work flexibly.
